

Safety and environmental policy

Milliken is aware that they can't produce quality products without taking into account the environmental aspects and safety of employees and subcontractors.

I commit myself, in accordance with the environmental and safety policy of Milliken & Company to develop and improve our environmental and safety management system according to ISO 14001: 2015 and OHSAS 18001: 2007 standards with attention to:

- Protecting the environment and avoiding environmental pollution through our activities
- Protecting the health and safety of our employees, subcontractors and visitors, to aim for "NO ACCIDENTS" and creating a safe working environment.
